

## SANITATION EQUIPMENT OPERATOR

### General Statement of Duties

Performs responsible semi-skilled and skilled work in the operation of a large motorized equipment and construction and maintenance of streets.

### Distinguishing Features of the Class

An employee in this class operates a boom truck, backhoe, loader, or other medium to heavy equipment independently. Work involves operating equipment in tight locations around underground and overhead utility lines, near trees parked cars and traffic. Work includes performing routine maintenance and servicing of equipment used. Work also includes assisting with a variety of unskilled or semi-skilled tasks when assigned to a crew. The employee is subject to hazards associated with public works including working in both inside and outside environments, in extreme hot and cold weather, and exposure to various hazards such as loud noises, vibration, moving mechanical parts, electrical current, chemicals, odors, dusts, mists, and oils. Work is also subject to the final standards of OSHA on blood borne pathogens. Work is performed under regular supervision and is observed occasionally while in progress or upon completion.
