

Utility Billing Update for October

Utility Billing Update: If you paid your utility bill by phone in September, you may notice on the bill you received this week that the payment was not reflected on your account. This is a new payment platform for us, and we have discovered that we were not receiving the electronic payment file along with the online payments that were already being imported to our system. This issue has been resolved and all payments are now posted. You can confirm your balance by calling 877-205-2091 or going to www.edmundsgovpay.com/beaufortnc and logging in with your account number and PIN. We apologize for the confusion and concern this matter may have caused.
